

ALEXANDRE TEIXEIRA DA SILVA

FOUNDING PARTNER

ARCHITECT

Alexandre Teixeira da Silva has worked as an architect since 1993, systematically researching the relationship between form, metrics and materials.

Over the course of his professional career he has experimented with various types of buildings, using Concrete and Metal construction solutions, and more recently he has worked essentially with Wood. Most of his work has been done in conjunction with Miguel Ribeiro de Sousa.

He is in charge of Modular System's Department of RDI (Research, Development and Innovation).

Nominated for prizes in the area of architecture, environment and sustainability: Secil Prize for architecture, Green Projects Awards, COFACO Environmental Award, Wallpaper design awards, PNAM.
